Jacquie Jordan

Grounding the Spiritual into the Material

Jacquie Jordan is a two time Emmy nominated TV Producer, is the founder of the ten year old Silicon Beach based TVGuestpert, New York Times Bestselling TVGuestpert Publishing and TVOnCameraTraining.com. With TVGuestpert, Jacquie works with businesses on their branding, promotion, marketing, producing and development, as well as their on-camera execution. She has been involved in booking, supervising or producing 10,000+ television guests.

She is also the published author of Get on TV! The Insider’s Guide to Pitching the Producers and Promoting Yourself! and Heartfelt Marketing: Allowing the Universe to be Your Business Partner.

At our August meeting, Jacquie will share with us:

- How to run a Principle based business which requires a primary purpose or company mission statement; harmonic value exchange (money for product or service or time and talent); aligning with the right clients; and finding your market expression.
- Discerning an intuitive idea that is yours to actualize and express vs. a collective idea, that may or may not be your own – where to put the focus on time and energy.
- Living life on purpose not distraction.
- Creating support systems and incubations around ideas and systems.
